Synergy®

Synergy Agro Chemicals Hyderabad Pvt. Ltd.

AN ISO 9001 : 2015 CERTIFIED COMPANY

OUR SOPHISTICATED LABORATORY

Synergy is one of the leading manufacturer and supplier of quality agriculture inputs in india. Based at Hyderabad **Synergy** has started its Crop Protection operations in 2009 and offering complete Crop Protection solutions using various Micronutrients, Soluble Fertilizers and Bio products in crops like Cotton, Paddy, Chilly, Pulses, Vegetables and Horticultural Crops. Our strong R&D team aims at development of innovative and eco-friendly products.

Synergy with support of Dealers and Farming community has started **Synergy Agro Chemicals Hyd. Pvt Ltd** with 150+ Products of befitting Agricultural Pesticides which are useful for all crops and **Synergy** motto is not only for Protection Crops but also for Higher yields in all crops with cost effective for benefit of farming community.

Services

Synergy Agro Chemicals Hyd Pvt. Ltd. provides its grower clients with highly qualified and professional employees to monitor crops on a regular basis by organizing Farmers Training programs time to time .

Development

Our Research and Development Laboratory is fitted with technologically superior testing equipment and this unit is manned by a team of dedicated and qualified researchers who put in their best effort in the development of new plant Solutions.

Research Centre

We are a research oriented organization with prime focus on development of innovative and highly effective molecules which are used for high protection and also to enhance the productivity of crops. They also assist us in formulating our range of products in environment friendly process.

Future Thrust

Synergy is Committed to Customer Delight By Providing High Quality Products and Best Service at Competitive Price. We Shall Strive to do this by regularly enhancing our Product Portfolio Through :

- ◆ Continuous Updating of Technology and Resources.
- ◆ Recognizing and Deploying Talent Through Empowerment of People.
- ◆ Capturing Market Information and Knowledge Management.
- ◆ Using efficient supply chain measures to meet the market requirements.

WATER SOLUBLE FERTILIZERS :

SYNERGY CROP PROTECTION New products of **WSF water-soluble fertilizers** covers the entire range of nutrients that plants need for healthy development and successful yield production.

SYNERGY WSF water-soluble fertilizers are ideal for highly efficient application by foliar sprays, and fertigation (Drip irrigation) ABOUT :

WSF - 100% WATER SOLUBLE FERTILIZERS :

GROWELL SF : Water Soluble Fertilizer (WSF) is NPK based unique formulation and reliable choice for nutrient management in agriculture. It contains high quality macro NPK Nitrogen (N), phosphorus (P), and potassium (K) in desired ratio of NPK with a balanced nutrient composition and essential nutrients S, Mg, B & ZN and chloride free substance, crystalline form fully water soluble. It is readily soluble in water and is best for drip irrigation and Foliar application & fertigation

GROWELL SF : Water Soluble Fertilizer (WSF) have been developed to help fertigation a method of fertilizer application in which fertilizer is incorporated which the irrigation water by the drip system

GROWELL SF : Water Soluble Fertilizer (WSF) formulation is designed to promote vigorous flowering and fruiting in plants. It enhances overall plant development, ensuring optimum crop yield. Suitable for various crops

Benefits :

1. Instant uptake of nutrients by the plants resulting in significant and quick improvement in crop will be seen.
2. Through this application nutrient uptake efficiency will be enhanced as losses due to leaching vitalization will be minimized.
3. The nutrients are textured and cohesively balanced. Hence this will give excellent results in field crops, fruit crops, vegetables, flowers & foliage crops.
